

Ol' Dusty Trail

Holding on between the lines
Feeling fine, but we're losing time
All my faith has left my side
Gone to die, but I don't mind

When I hit that ol' dusty trail
I hit it hard like tooth and nail
I'm standing on that devil's tail
When I hit that ol' dusty trail

The road it will be my demise
Just keep me from those corporate ties
I'll sit upon my throne of lies and sail
When I hit that ol' dusty trail

Aching head is falling down
Spinning around, Gotta leave this town
We will roam, this road will wind
Down the mountainside, O'er the river wide

When I hit that ol' dusty trail
I hit it hard like tooth and nail
I'm standing on that devil's tail
When I hit that ol' dusty trail

The road it will be my demise
Just keep me from those corporate ties
I'll sit upon my throne of lies and sail
When I hit that ol' dusty trail

Letting go to yesterday so I can fade away
I'm gonna fade away
Death is everywhere
But I don't care, I ain't fucking scared

When I hit that ol' dusty trail
I hit it hard like tooth and nail
I'm standing on that devil's tail
When I hit that ol' dusty trail

The road it will be my demise
Just keep me from those corporate ties
I'll sit upon my throne of lies and sail
When I hit that ol' dusty trail
