

Demon in the night

I see yer demons in the night
I see yer shadow in the hallway light
Yer shadow always comes around
Yer a cold dark spot on the cold hard ground

Ill be the one to honor you,
I see yer demons, I see yer demons
Ill be the one who's always true
I see yer demons, I see yer demons
Ill be the one to follow you
I see yer demons I see yer demons
Ill be the one who will be the end of you

Open Solomon's key
Let all them demons free
Raise em up from hell
Watch you climb climb climb until ya fell

I'm infested with yer fleas
I itch and scratch and bleed spread disease
You gotta put me down
Like a mangy mutt I been trampin round town
