

Copper King

I am the copper king
I will scrap everything
Kick down the door rip up the floors and walls
When I hear that copper call

I am the copper king
I always got the brass ring
In the ceiling, bleedin, watch me fall
When I hear that copper call

I hear it every day
I can't stay away
Green glistening in my head lamp
Ill sit here and spin my tools in the cold dark damp

I am the copper king
I can hear those elements sing
Got the low price once or twice fuck you all
When I hear the copper call

I am the copper king
Asbestos runnin thru my veins
Fiberglass itch, nervous twitch, pack up and haul
When I hear that copper call

I hear it every night
It's always in my sight
Green glistening in my head lamp
Ill sit here and spin my tools in the cold dark damp
