

# Save Us

i don't believe in angels  
they're never there for me  
i don't believe in heaven  
cause hell is all i see

i don't understand it  
this world's philosophy  
battle worn and wounded  
this war is not for me

no-one's here to save us  
so we have to save ourselves  
and they'll all try to stop us  
we'll see them all in hell

i don't believe in angels  
they're never there for me  
i don't believe in heaven  
cause hell is all i see

no-one's here to save us  
so we have to save ourselves  
and they'll all try to stop us  
we'll see them all in hell
